MISTRAL 802 Wet/Dry Industrial Vacuum Cleaner

The MISTRAL 802 is a compact Wet/Dry vacuum cleaner, highly maneuverable steel built vacuum provided with a float for wet applications, together with a second filter for suction of dust and dry material, thus alternatively

Suction Unit

The suction is provided by a suction unit of the side channel blower type with direct coupling between the fan and the motor shaft with no transmission system. It is thus maintenance free, very silent and fit for round-the-clock 24 hours duty. A safety switch cuts off the motor in case of overheating. A vacuum indicator enables constant checking of the suction performance and detecting

Suction Unit

Filtration

The dust filter kit is made by a double bag type filter made by a polyester filter on the inside, providing a good filtration and nylon on the outside, in order to protect the main filter from abrasive or cutting material. The dust filter has a self cleaning system, which causes the dust to shake off each time the vacuum is shut off. The wet kit is made up by a floating device, protecting the motor against damage from liquids, foam and solid objects and a nylon filter prevents

Filtration

Control Unit

The control unit is placed in a safe position at the back and include two independent ON and OFF switches.

Application Fields:

The MISTRAL 802 Three Phase Wet/Dry appeals to an array of users and applications, such as building and cleaning contractors, laboratories,

Description	Units	Values
Voltage	V /Hz	415 / 50
Power	KW	1.8
Vacuum Pressure (max)	mm of H2O	1950 ± 5%
Air Flow(max)	m3/h	255
Capacity	L	80
Filter Surface Area	cm2	8000
Filter Efficiency	CAT (BIA)/ micron	L/G >3
Protection	IP	55
Noise Level	dB(A) ± 5	70 ± 5%
Suction Inlet	Dia mm	80
Weight	kg	55
Dimensions (L x W x H)	mm	500 x 480 x 1340

*Tolerance limit = ± 5%
